Security Audit – Professional Service Package

security

What it does

The Security Audit Professional Service Package achieves a higher level of effective security for companies. Protecting against any security threat, a comprehensive evaluation and risk analysis is undertaken on a network. A security policy and procedure review will also be completed to comply with international auditing and security standards.

Key Services Included

- Security policy review
- Evaluation of existing external/internal security
- Network and security discovery
- Network security audit
- Authentication testing
- Security log audit
- Security policy document review

How and when does it happen

All key services are completed in accordance with approved test script procedures and check lists. Comprehensive reports and recommendations are produced on completion.

This service package can be purchased as a one off fixed cost. The service will be undertaken only once a year. Under this offering.

The subscription option provides saving benefits and the service takes place twice a year on scheduled dates
